

Maximize Efficiency with AP Automation

In times of change, leading finance teams are focusing more on strategic activities and eliminating manual processes like line-item invoice entry and processing. Alleviate the burden of repetitive manual tasks with DocuPhase's accounting automation solution. DocuPhase provides you with the tools you need to simplify, organize, and automate all of your finance processes.

Instantly Extract Data

Optical Character Recognition extracts invoice data into your system with minimal manual entry.

Search Effortlessly

With all your invoices in one digital filing cabinet, you can easily search and access information in seconds.

Streamline Approvals

Build custom, permission-based workflows, for quicker invoice approvals and reminders.

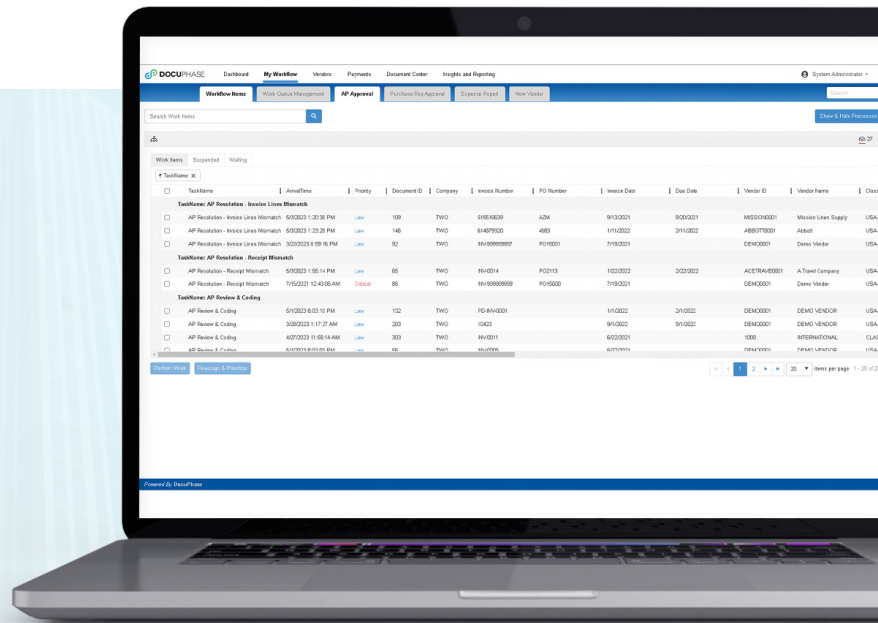

Connect Your ERP

Increase productivity through seamless integration with your accounting systems.

"Our AP clerk has found that the program itself has been somewhat of a godsend in the fact that it's lessened her workload tremendously. To have parties coming to me saying, 'We can do more work,' has given us the ability to complete other tasks that we hadn't been able to do before. We're now able to look at other areas and processes and see where we could benefit."

Phil Jones
Executive Director of Finance, Alimera Sciences

Companies That Trust DocuPhase

ALL-IN-ONE ACCOUNTS PAYABLE AUTOMATION SOLUTION

Invoice Automation

Eliminate lost or late invoices by removing paper and email-based tracking.

Approval Routing
